

# A SEXY SISTER ACT!

WITH OK! FASHION & BEAUTY DIRECTOR ROSIE UNDERWOOD

Everything power siblings Kendall and Kylie Jenner touch seems to turn to gold, and seeing as the girls have been rocking bikinis more than clothes lately, we've gone mad for the sisters' dynamic swimwear collection with Topshop. Drawing inspiration from their Californian roots, Kendall says: 'Every look captures the beachy summer vibe of LA.' Her younger sister Kylie adds: 'Whether you're swimming, sunbathing or surfing, we designed each piece with having fun in mind!'

## STRETCH IT LIKE KYLIE

The practice of yoga is not only good for the mind and body, it's also great for getting a glowing complexion – more so than a lot of face creams on the market! Inversions bring a fresh

blood supply to the face, stimulating facial capillaries which flush fresh oxygen and nutrients to the face. I tried out a dynamic practice with Jax Lyscia, who's taught the likes of Kylie Minogue (above

left) – which explains the songstress's youthful glow at 48! – and the results were second to none. See [www.formenterayoga.com](http://www.formenterayoga.com) for more information about Jax's A-list Ibiza retreats.

## SHOWER POWER

This year, one of 2015's bestselling beauty buys just got better. We've seen Kate Moss rave about it and it's made self-tan fear a thing of the past – now St Tropez Gradual Tan In Shower delivers a deeper, longer-lasting colour with intense hydration, meaning minimum effort for maximum results. Hallelujah!
